Evangelismo en Acción

Fiel Adress: Fam. Vázquez-Guevara Apdo. 503 ; 01005 Vitoria-Gasteiz; (ALAVA) Spain

January, 2012

We hope you all are doing good. This brand new year we really want to do things well for our Lord so it is our prayer that as missionaries and as church we will be effective instruments to give him glory and let the community that we serve hear the Good News for salvation!

We have been praying and organizing an a evangelistic activity during the past few months and have requested permission in two different places, one is the Polideportivo in front of our church (meeting point) and also in a Lecture Hall down town, of which only the Polideportivo answered positively so we are now on agenda for the **9 and 16 of February 2012.** 

The permission request was not an easy task as we learned in the process. Five years ago it would have not been a problem but now things have changed and permits as the one we were requesting for religious purposes are being denied under the "new no- religion policies" argument which we know are but excuses to block this initiatives as a result of the Islamic groups own initiatives, this way we evangelical christians are also affected.

So, after coming to "sense & sensibility talks" with the people in charge they decided to give us a YES, God bless them! Our activity is a Testimonial Conference with Luke Veldt and the presentation of his book "Written in Tears". Luke and his family went through the deep pain of loosing their teenage daughter and from his honest spiritual experience with God he wrote this book in which he explains that it is possible to have hope and God's comfort even when going through the deepest sorrow.

Written in Tears is a grieving's father journey through the deep and honest study and meditation of Psalm 103.

In our last letter we mentioned **Gorka**, a young man who is very excited about starting a bible study; but when he told his mother he never expected her very angry and negative reaction saying NO and added: "If you keep going there I will sue that people" Others have told him to stay away from sects.

These kind of attitudes show clearly much ignorance and as a result a counter-christian thought due to the traditional religious in Spain. We are praying for Gorka and his family we are sure that God has a plan for

him.

**Gisela** a girl from Argentina has been collaborating with us for six months and is now going back to her country.

**Annemiek** a girl from Holland is collaborating with us in several areas of need: worship and as a professional of language of deaf communicator she has been doing voluntary work in a social institution in Vitoria. She will be with us until March.

We want to thank God for the work these voluntaries have been doing and a please pray so their contact with non-christians can become a way to open hearts to the truth.

Help us pray for our February activity with Luke Veldt.

Please also help us pray so we can make good friends in our neighborhood and start a bible group. The contact of our young people in touch with other young can lead into longtime friendships and touch their hearts for salvation.
